

Architectural Associate / BIM Designer

Straughn Trout Architects, LLC, a well-established multidisciplinary design firm, is seeking a talented Architectural Associate / BIM Designer to join the firm's team. The candidate will be responsible for architectural design and the preparation of construction documents for buildings of various occupancies while utilizing Revit for all phases of design. The candidate must be self-motivated and possess the technical ability to work independently on projects from schematic design through the construction phase with minimal guidance. This role includes coordination with the project team, clients, engineering consultants and regulatory agencies. This exciting and dynamic opportunity will challenge the ideal candidate to collaborate on compelling and effective architectural design initiatives that will contribute to the mission and standards of Straughn Trout Architects.

Responsibilities Include:

- Conceptualize and create innovative and effective designs for a variety of projects idea/concept to execution
- Evolve design concepts through phases from schematic ideas into Construction Documents utilizing Revit 3D BIM modeling with high accuracy, precision & efficiency
- Develop architectural plans, sections, elevations & details in organized submissions for owner/contractor/consultant deliverables
- Create customized Revit content and coordinate into project document sets
- Document design computations and project-specific architectural details
- Reviews project drawings and assists in establishing and maintaining project deadlines
- Collaborate with STA staff members and design principals on design approach and details
- Explicit desire and evident focus to elevate their personal career through the promotion and expansion of the firm, its works, its brand, culture and reputation.

Preferred Skills and Experience:

- **REQUIRED: 0-2+ years of professional architectural design experience**
- **REQUIRED: Organized, detail-oriented self-starter that can work within a cooperative environment**
- **REQUIRED: Expertise to effectively utilize Revit Architecture**
- Familiarity of architectural building systems with the ability to create technical drawings and 3D models in accordance to standard construction techniques and principles
- Actively participate in internal and external coordination & QA/QC processes
- Proven ability to elevate the quality, creativity, and deliverables developed
- "Can do" personality that thrives in a deadline driven and rapidly changing environment
- Demonstrate quality and thoroughness in all aspects of work performed

Required Technical Proficiency:

- **REQUIRED: Autodesk Revit & AutoCAD Architecture** (Revit Model Mgmt experience preferred)
- Microsoft Office (Word, Excel, Outlook & PowerPoint)
- Desirable: Photoshop, Illustrator, InDesign, SketchUp, Rhino, Enscape and Lumion
